Custom Components and Configuration for Enhanced Platform Functionality

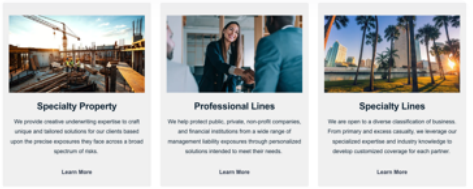

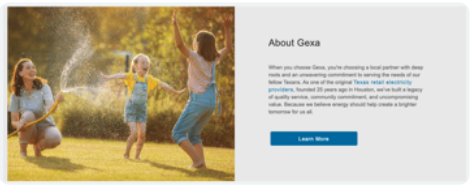

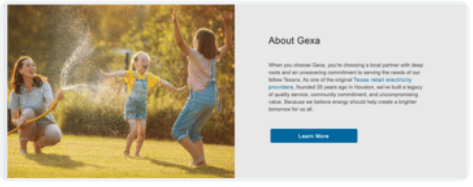

⚙️ **Custom components and configuration of platform to include, but not limited to:**

	Component	Details
1	Custom map functionality	
2	Video embedding components	 Home page hero banner or 
3	Notification/alert banner	
4	Cookie/consent banner	
5	Homepage pop-up	
6	Testimonials • Video • Text	The ability for testimonial videos to be shown on internal pages, as well as on their standalone page.

		Please do not follow this layout, it's just an example.    We'd a video component that will allow us to tag and filter videos, allowing us to automatically add them to relevant pages. The component should also live on the Life@Dycom page, and allow users to filter by relevance.
7	Accordions	A responsive accordion that allows us to include text, images, buttons, etc., and other layout elements.

		
8	Quotes/callouts	The ability to have callout and testimonials that show text, but also have an image/video element.   
9	Image gallery	
10	Counters (for numbers and stats)	 

11	Icons with descriptions	   Icons should be in vector format to prevent the need to resize often.
12	Carousel banner/hero slider or video	Please see the header component at the top of this page. MYR Group | Electrical Infrastructure Contractor 
13	In-page sliders	 

		Sliders should have the ability to include images and videos, as well as a title, description, and a hyperlink. They should have the ability to include images and videos, but the flexibility to be text-only as well. Dycom Benefits | Competitive Corporate Careers 
14	Image/video, text, link card. Ability to stack horizontally.	  All items that contain an image should also be able to contain a video.
15	Form flexibility (right, left, top, bottom)	
16	Social media feed	
17	50/50	
18	CTA callout	

19	Bulleted list with icons	
20	Ability to use SVG icons	
21	History/timeline	

		
22	Resource center • Search bar • Author/no-author • LLM visible	
23	Document list for docs to open PDFs	Annual Reports | Dycom Industries, Inc. A more elegant and appealing UI version of this page. 

24	Use of animation and movement (not required)
