A visual identity that brings the new positioning to life.

OPPORTUNITIES

- Use color and shape to create a clearer, more ownable brand story
- Reflect a business driven by technology, data and innovation
- Better represent the culture, ambition and people behind the business
- Create a brand that feels more human, approachable and proud

Scale

Putting scale at the center: a simple, confident D built from expanding arrow forms. Stable yet progressive, it signals momentum, growth and Dycom’s ability to move infrastructure forward at measurable scale.
